QUALITY ASSURANCE CERTIFICATE

RAL GÜTEZEICHEN

SUBSTRATE FÜR PFLANZEN

Gramoflor GmbH & Co. KG

(Production site Vechta)

has submitted the following product

Cocopeat TYP 30

for inclusion in the RAL Quality Assurance Programme for
'Growing Media Constituents' (Coir Products) in 2025
and performed the specified continuous internal and external sampling procedures.
The Quality Assurance Programme will be continued in 2026.

The right to hold the quality mark 'substrates for plants' for Coir Products remains in force for applications of up to 30 Vol% in the growing medium.
This certificate is valid until 30 June 2027.

Hannover, 14 April 2026

Gütegemeinschaft Substrate für Pflanzen e.V.

Head of the Bark and Growing Media Constituents Quality Committee

Management

Any modification or alteration of the present certificate, especially erasures and substitutions, is illegal and may be punishable as a falsification of documents.

The present certificate is not intended for use as an accompanying document for shipments and not suited to document quality assurance of any specific shipment.
